PROFILE SUMMARY

AI & Data Science student developing practical front-end skills in HTML, CSS, and JavaScript, alongside Python. Built a personal portfolio website, Pixora website interface, and an academic Student Performance Prediction project. Seeking a Web Developer Intern opportunity to strengthen development skills and contribute to clear, user-friendly web experiences.

TECHNICAL SKILLS

Front End	Programming	Tools
HTML5, CSS3, JavaScript	Python, C	Git, GitHub, VS Code, Jupyter Notebook

Additional: Basic Data Structures & Algorithms, Machine Learning, Data Analysis

PROJECTS

Pixora — Website UI Design | HTML, CSS, JavaScript

Designed and developed a branded website interface with custom styling and interactive front-end elements. Worked on responsive layouts and mobile-view improvements to make the design more user-friendly.

Personal Portfolio Website | HTML, CSS, JavaScript

Created a portfolio layout with Home, About, Skills, Projects, and Contact sections. Testing and further improvements are in progress.

Student Performance Prediction | Python, Jupyter Notebook, Machine Learning

Academic project exploring student performance prediction using a dataset and introductory machine-learning concepts.

EXPERIENCE

Customer Support — GJ Solutions

Assisted customers with their queries while maintaining professional communication. Achieved top quality scores on multiple occasions, demonstrating a strong focus on service quality and customer satisfaction.

EDUCATION

B.Tech — Artificial Intelligence & Data Science — **74.0%**
St Mary's Women's Engineering College

Diploma — **77.88%***
Velaga Nageswara Rao College of Engineering

SSC (Class 10) — **58.83%**
ZP High School Girls, Kolluru, Guntur District

*Verify diploma aggregate against the official marks memo before applying.

CERTIFICATIONS

- Use Generative AI for Software Development — IBM SkillsBuild
- AI Skills Passport — EY & Microsoft
- NPTEL — Python for Data Science
- Google Student Ambassador Program — Freshers' Party Night Edition (Participation Certificate)

ACHIEVEMENTS & LEARNING

Participated in a college hackathon. Actively learning web development, Python, and data structures and algorithms.
